

Welcome on the way to hell

Music & Lyrics by
Thomas Raber

Intro

Strophe

Another shock in a flat block an explosion blew them away.
so I ask myself and you, too, should I go or should I stay.
where on earth do we live we only wanna have and don't want to give
That's the street, the street to nowhere. Take it easy we will go there

Refrain

welcome on the way to hell welcome on the way to hell oh - -
welcome on the way to hell the way to hell

Intermezzo

All you can see looks like desert it's the same as on the moon
The problem is that we can't see that
Because at that time we will be dead, we will be dead
